

Wanda Jackson, I Wouldn't Want You Any Other

I can't put my finger on this love of ours life with you keeps changing every day
One minute you're all sunshine and the next you turn to showers
But I wouldn't want you any other way
I've been through your crazy moods so many times
More than once I've been the one who pays
Oh but nothing really matters just as long as you are mine
Cause I wouldn't want you any other way
When you touch me when I'm sleeping I wake up at heaven's door
And I kiss you on the pillow where you lay
With your arms around me tightly I could ask for nothing more
And I wouldn't want you any other way
With your arms around me tightly...
