

Wanda Jackson, Lonely Weekends

Well I make it alright from Monday morning till Friday night oh those lonely weekends
Since you left me I'm as lonely as I can be oh those lonely weekends
Said you'd be good to me I said our love ain't gonna never ever die
I said you'd be true to me but baby you didn't even try I make it alright
From Monday morning till Friday night oh those lonely weekends
(guitar)
I make it alright...
Oh those lonely weekends oh those lonely weekends look out those lonely weekends
