

Wanda Jackson, Lovin' Country Style

I like my lovin' country style I'm only in the city for a while
So when I'm rid you see how I'll head for Tennessee
Cause I like my lovin' country style
I like my lovin' huggin' kissin' country style it's the best by test wins by country mile
You don't know what you've missed just wait till you've been kissed
Kissed in that good old country style

I like my huggin' country style there's only kind of boys that's worthwhile
They're best for everything even plowin' in the spring
That's why I'm like 'em country style
I like my lovin' huggin'...
(guitar)
I like my kissin' country style and a country weds is the lady's style
I want a country boy to be my pride and joy
Cause I like 'em good old country style
I like my lovin' huggin'...
