

# Wanessa Camargo, Love Won't Let Me

What I should do  
Is play it cool  
In front of you  
And I just might fool you  
For a minute or two  
But what I can't hide  
Is everything I feel inside  
'Cause the truth is baby  
My heart starts racin'  
When I'm next to you  
And love won't let me  
Not go crazy when you come around  
Go insane when we get a little closer now  
I'd be inclined to chicken out  
But love won't let me  
Love has a funny way of getting you in  
To something that scares you  
But you can't resist  
I'd let you leave without a kiss  
But love won't let me  
So we took that step  
Now I'm over my head  
I'm circling the Earth and I'm pretty sure  
I won't be coming down for a while  
But the trouble is ever since that little kiss  
I don't care how late it gets  
I don't wanna let you out of these arms of mine  
'Cause love won't let me  
Not go crazy when you come around  
Go insane when we get a little closer now  
I'd be inclined to chicken out  
But love won't let me  
Love has a funny way of getting you in  
To something that scares you  
But you can't resist  
I'd let you leave without a kiss  
But love won't let me  
And now, I only wanna spend my time  
Holding you tight, every night  
Baby everytime I think about it  
I've loved you from the day we met  
The way you get me  
I'm so glad that love won't let me  
Not go crazy when you come around  
Go insane when we get a little closer now  
I'd be inclined to chicken out  
But love won't let me  
Love has a funny way of getting you in  
To something that scares you  
But you can't resist  
I'd let you leave without a kiss  
But love won't let me  
Not go crazy when you come around  
Go insane when we get a little closer now  
I'd be inclined to chicken out  
But love won't let me  
Love has a funny way of getting you in  
To something that scares you  
But you can't resist  
I'd let you leave without a kiss  
But love won't let me  
Not go crazy when you come around  
Go insane when we get a little closer now  
I'd be inclined to chicken out

But love won't let me  
Love has a funny way of getting you in  
To something that scares you  
But you can't resist  
I'd let you leave without a kiss  
But love won't let me
