

Wang Chung, True Love

(Jack Hues / Nick Feldman)

Chorus:

True love is the answer to everything

True love is the answer

True love is the thing

Long days spent on the edge of space oh

Maybe someone will come along love

All day with every familiar face oh

Tells me you're very very wrong love

Repeat Chorus

This dance could never be true enough oh

There's more that leads us to our destiny

Entranced we travelled the two of us oh

And I knew that only you could rest the world for me

I live deep in the heart of things

Feel such a part of things

That remind me of you love

And I know whatever the future brings

Wherever the pointer swings

There will always be true love

You love

Repeat Chorus
