

Warcloud, Killer Moth

Killer Moth

The killer moth, live in church, I harm lots
Spiderman, standing on the ceiling with my fucking arms crossed
The killer moth, the Shady's tape, crystal lakes
Pistol charades rape, Swiss chandlers eighties cakes

Lyrics to a cometh, it took a day to reach the summit
A killer moth, a moth that bites you and you fucking die
The ship wrecked patriot, I have no patience
The California statement, I knock your top ridge in blatant, we on a spaceship

Cocktail Pearl Harbor, you're all alone, dismal, sinister
The brotherhood of skulls
Cocktail Pearl Harbor, you're all alone, dismal, sinister
The brotherhood of skulls

Lyrics to a cometh, it took a day to reach the summit
A killer moth, a moth that bites you and you fucking die
The ship wrecked patriot, I have no patience
The California statement, I knock your top ridge in blatant, we on a spaceship

A Holocaust navy mate, jaw is black hawk
The shatter star, Allah be scar hit
A swabby star fish on the portal
A skinny ghost brave immortal
Corn? Out the woodworks like a Chinaman in a saucer hat
What? Flip on Bugs Bunny, yo I was watching that
Snatch a batch a hair off your head like Moe and Larry

Lyrics to a cometh, it took a day to reach the summit
A killer moth, a moth that bites you and you fucking die
The ship wrecked patriot, I have no patience
The California statement, I knock your top ridge in blatant, we on a spaceship

Lyrics to a cometh, it took a day to reach the summit
A killer moth, a moth that bites you and you fucking die
The ship wrecked patriot, I have no patience
The California statement, I knock your top ridge in blatant, we on a spaceship
