

# Wardance, I Don't Love You Anymore

Don't look at me with your bedroom eyes  
That used to promise  
me so much  
You won't change my mind - I'll leave  
I was the jester of your court  
You made a fool of me  
And like a brand you burnt yourself  
Into my memory

Chorus:

I hate you - I love you too  
And now I wear you like a scar  
You think you're irresistible  
But now I can see  
Through all the lies - the little lies  
That you were telling me

Chorus (repeat)

My mind is going round in circles  
Should I stay or should I leave?  
My heart is in your hand  
You stole it like a thief  
I thought your  
love was true  
I was too blind to see  
That you're a teaser and your grief  
Was pain and misery  
Chorus (repeat)
