

# Wardance, Neverending Nightmare

Midnight's coming I see devils running  
And I feel it's not only a dream  
I know what they want I know it now -  
They want to get me and take my soul away  
The hell is open and earth's vibrating  
I see the devil'  
s celebrating  
They start a hunting they want to catch me  
They want to torture and take my soul away  
Chorus:  
Nightmare  
I'm living in a neverending nightmare  
And there's no chance to be save in a nightmare  
In a neverending nightmare  
I look around I see the devil on my right  
And I feel it's time to die  
I loose the fight I have no chance  
He's gonna kill me and take my soul away  
Chorus (repeat)
