

Wargasm, Do It So Good

I

Do it so good

No one ever sees it coming when the house lights kill the party and I'm gunning for a little bit more
Hitting hard like Sarah Connor
Ripley and Madonna, baby, I got what you're looking for

(Here we go here we go here we go now)

Bullets hanging off my
Chains holding up my
Gold dripping down my
It makes you tremble baby tremble baby

Uh

Bullets hanging off my
Girls wanna have my
Chains holding up my
Boys wanna be my
Gold dripping down my
It makes you tremble 'cause you know that you can't

I do it so good

I do it so good

I do it so good

I do it so good

I do it so good

Do it so good

No one ever sees it coming when the search lights kill the party
You'll still find me playing dirty in love in an armoured truck
Screaming "death from above"
Baby we came for blood
Baby we came for blood
I hate to see you tremble

Cause you know that we can and you know that you can't
I hate to see you tremble
You can copy the face but you can't recreate the taste that's why
I do it so good

I

I do it so good

I do it so good

I do it so good

I do it so good

I do it so good

Do it so good

Bullets hanging off my
Chains holding up my
Gold dripping down my
Better than your best on my worst day
Bullets hanging off my
Girls wanna have my
Chains holding up my
Boys wanna be my
Gold dripping down my
It makes you tremble 'cause you know that you can't

I do it so good
You're wearing my skin but I see right through you
I do it so good

I do it so good, go

I do it so good
I do it so good
I do it so good
I do it so good
I do it so good
I do it so good
I do it so good
Do it so good
