

# Warhammer, Mankind's Darkest Day

(Lyrics by Volker Frerich)

(Music by Volker Frerich and F. Krynojewski)

Some say our world will end in fire; some say, in ice  
What if it silently fades away, for nobody to recognize?  
When compassion gets lost in vulcans of rage  
The last prayer seems like an icon of a lost decade

(REFRAIN:)

Some still try to avoid the darkest day  
The fight unnoticed of the masses that have fallen  
Can you see the light that points out of the darkness?  
Or have you surrendered yourself to total hatred?

The world may end in a whisper, not a thunderous roar  
But it may be as dead as after the atomic stroke  
When caring about others disappears in clouds of dust  
We will dwell alive in a grave the size of this earth

(REFRAIN)

When did we lose track, was it right from the start?  
But that we did is for sure, no one can deny  
When the last of the fighting kind gives in  
We see our own demons dance  
Among the tears that we cry
