

Warhead, Eternal White Race

I am proud of my race
And of the land, where I was born
I don't want these strange nations
to seize my country
With the help of my brothers
Today my nation can exist
Only fight with that awful enemy
Is the hope for my race
There is no place in my country
For the thieves of Aryan culture
Who are destroying my Race
Burning our roots
Riot against black emigrants
Fight, against foreign blood
Pride of eternal white race
Racial Holy War, the hope for the world
