

# Warner Mack, It's Been A Good Life Loving You

I'd never give you mansions or diamonds on your hand  
And I know that I felt short on dreams we planned  
But when my time is over when my life is through  
I can tell you truthfully it's been a good life loving you  
You must have thought my promises sometimes were only lies  
But please believe me when I say darling I've always tried  
If you should up and leave me and suddenly say we're through  
Still I could count my blessings it's been a good life loving you  
You must have thought...  
Yes it's been a good life loving you
