

Warner Mack, Let's Get Back Down To Earth

Well this ol' world is a gettin' worse and worse every day
People livin' up above their heads and makin' bills that they can't pay
Their jealous of their neighbors and it's been like that since birth
So come on down and get your feet on the ground let's get back down to earth
Let's get back down to earth and live with the common people
Then we won't be so meserable when we get old and feeble
Now let's be honest with ourselves we all know what we're worth
So come on down and get your feet on the ground let's get back down to earth
(steel)
When we all come to this ol' world we didn't bring a thing
And when we leave this ol' world we're gonna take the same
Now you know better than I am when the man says dirt to dirt
So come on down and get your feet on the ground let's get back down to earth
Let's get back down to earth...
Yeah neighbor
Come on down and get your feet on the ground let's get back down to earth
