

# Warner Mack, Let's Get Back Down To Earth

Well this ol' world is a gettin' worse and worse every day  
People livin' up above their heads and makin' bills that they can't pay  
Their jealous of their neighbors and it's been like that since birth  
So come on down and get your feet on the ground let's get back down to earth  
Let's get back down to earth and live with the common people  
Then we won't be so meserable when we get old and feeble  
Now let's be honest with ourselves we all know what we're worth  
So come on down and get your feet on the ground let's get back down to earth  
( steel )  
When we all come to this ol' world we didn't bring a thing  
And when we leave this ol' world we're gonna take the same  
Now you know better than I am when the man says dirt to dirt  
So come on down and get your feet on the ground let's get back down to earth  
Let's get back down to earth...  
Yeah neighbor  
Come on down and get your feet on the ground let's get back down to earth
