

# Warner Mack, When We're Alone At Night

It's worth workin' all day just to hold you my way when we're alone at night  
When we're alone at night I'm so close to heaven  
When the world's locked up outside I know life's worth livin'  
The troubles around me are all out of sight  
My worries are gone I'm where I belong when we're alone at night  
I can't count the hours your love's pulled me through  
The times I've leaned on just my thoughts of you  
And live for the moments I'm holding you tight  
It's worth workin' all day just to hold you my way when we're alone at night

When we're alone at night my heart rings with laughter  
Your love has a way to make it beat faster  
When your arms surround me my world seems so right  
My worries are gone I'm where I belong when we're alone at night  
I can't count the hours...
