

# Warren Brothers, Waiting For The Light To Change

(Brett Warren/Brad Warren/Benmont Tench)

I'm sittin' in car in southern California  
Just like I do every day  
Thinkin' 'bout my life  
And waiting for the light to change  
Told her I was leavin'  
She said I don't believe you  
That's what you always say  
Now I'm gonna prove her wrong  
I'm just waiting for the light to change

Just outside my window  
The world keeps rolling by  
It makes me think of what's ahead  
And what I'd leave behind

I was all but gone when I heard  
her favorite song  
Comin' down those radio waves  
Now it's getting harder  
Waiting for the light to change

Just outside my window  
The world keeps rolling by  
It makes me think of what's ahead  
And what I'd leave behind

I'm sittin' in car in southern California  
Just like I do every day  
Thinkin' 'bout my life  
Whether I should go or stay  
Guess I'll turn this car around  
I'm just waiting for the light to change
