

# Warrior Soul, In Conclusion

(Clarke)

In conclusion Say a prayer for us  
We must say goodbye If we meet again  
Please remember Why we say goodnight

Take good care now All earths children  
Learn from wisdoms cry

Hear the unspoken  
See without sight  
Learn yourself inside

Media children pacified Information classified  
Governments hide behind religion  
Kids like us get thrown in prison

We come to We come to  
We come to our own conclusions(repeat)

In conclusion Please be wary  
Where authority reigns Control tightens  
As we sleep A false security

All our leaders Answer to silent bosses  
Where profit fills their greed

Think before action Learn before acceptance  
Decide what you should be

Media children pacified Crosses stand where the dead men died  
Governments hide behind religion Kids like us get thrown in prison

We come to We come to  
We come to our own conclusions (repeat three times)

Say a prayer for us That we dont lose our way  
While freedom lies there dying  
We are there to hold its hand

Take all the children holy To the river of damned  
Make them drink its waters Lonely so they can learn what we had

Media children pacified Information classified  
Governments hide behind religion Kids like us get thrown in prison

We came to We came to  
We came to our own conclusions (repeat three times)

Goodbye Goodbye Goodbye-freedom  
Goodbye
