

# Warrior Soul, Television

Take me out for the super future  
Tellin' you man I'm a goin' ta use her  
Let me go and I'll slide like rayon  
Stuck with you and I'm stuck with nothin'

Take me out to the universe  
Ya know ya can't stop me from lovin' you  
Take my heart let the pieces fall in  
The star bright sky and a piece of you

Check out baby she's a ridin' the missile  
Fall out trigger crazy pull on the pistol  
Last year happy just a rulin' the scene  
Now they're blowin' their brains to pieces

Take me out to the universe  
Ya know ya can't stop me from lovin' you  
Take my heart let the pieces fall in  
The star bright sky and a piece of you

Yeah man, you know I'm sick to death right now  
Can't believe it  
What the hell is wrong with you  
All I believe in take the pretty pill  
Man I'm ridin' the wave in

Television you got a vision  
Television you got a vision  
Television you got a vision  
Television you got a vision

Take me out to the universe  
You know I'm movin' too fast for the human racin'  
No one sees me when I'm falling  
Take my heart and a piece of you

Television you got a vision  
Television you got a vision  
Television you got a vision  
Television you got a vision

Screens like mansions on concrete steeles  
Break the will and ride the people  
New gods give for you to heal  
Too bad you will never feel  
Get down - I wanna ride the wheel right now  
And if you see me  
Drop a line and help me out  
Ridin' a vision  
Take a look man for the new incision  
Ride a vision you're on a mission  
Crawl like a dog and beg for forgiveness  
Take me out to the universe  
You know I'm moving too fast for the human racin'  
No one sees me when I'm falling  
Take my heart and a piece of you  
Television you got a vision  
Television you got a vision  
Television you got a vision  
Television you got a vision
