

# Warzone, Warzone

Warzone

In your mind, in your dreams

In the real world

Warzone

Everyday you wake up

Roam the streets

Warzone

Must be strong

Believe in yourself

Warzone

And you will see

They lied to all of us

Never really cared about you

Step right on your grave

It's time that you

realize

They fucked us over again

The powers that be don't give a shit

Now I guess you know you're in a

Warzone
