

Warzone, We Won't Forget

I look back to the past
The struggle, the streets
Memories of a time
In the back of my mind
Now, years later we're still having fun
Keeping it true
United as one
We won't forget
In our hearts, in our minds
It's still alive
Our music, our lyrics
The truth survives
No egos, no rock stars allowed in here
Check yourself
Are you for real?
We won't forget
