

# Warzone, Will You Ever Come Back

Doing that dope  
Getting that high  
Where the fuck is your brain  
There's no hope left  
Will-You-Ever-Ever-Ever-Come-Back  
FACE UP TO IT  
Can't find a reason for your actions  
Can't make no sense of this at all  
Can't make no actions toward your reason  
So what - HEY - You got no brain  
Find a pot - sterilize - invade your vein  
Seconds later you feel the rush  
It's found your - brain  
Soon you know - everyone will see  
That you've dug your own ditch  
Pulling people down into it  
Now you ain't worth shit  
Find a spot - sterilize - invade your brain  
Seconds later you feel the rush  
It's found your - brain  
Doing that dope  
Getting that high  
Where the fuck is your brain  
There's no hope left  
Will - You - Ever Ever Ever - Come - Back?
