

# WASP, Easy Living

[Uriah Heep cover]

This is a thing I've never known before  
It's called easy living  
This is a place I've never seen before  
And I've been forgiven

Easy living, and I've been forgiven  
Since you've taken your place in my heart

Somewhere along the lonely road  
I had tried to find you  
Day after day on the winding road  
I had walked behind you

Easy living, and I've been forgiven  
Since you've taken your place in my heart

Waiting, watching, wishing my whole life away  
Feeling, fainting, ready for my happy day

Somewhere along the lonely road  
I had tried to find you  
Day after day on the winding road  
I had walked right behind you

Easy living, and I've been forgiven  
Since you've taken your place in my heart  
Easy living, and I've been forgiven  
Since you've taken your place in my heart
