

# WASP, Little Death

Lead your forehead into my kiss  
Embrace me, careful darkness  
All the love fades away  
Little Death's reflections of  
Who's the darkest motherfucker on the planet  
Fiction tied to death I know I am it  
Immortal love

Hey, Hey, Hey, Wanna set you free  
Hey, Hey, Hey, Would you die for me

Gimme Little Death it's so romantic, Oh, Oh  
Fuck it up to death it ain't so tragic, no.....

Hatred will, immortal wings  
Vampires and Blackened Children  
Kiss of the blood from my lips  
Death we are, death we've always been  
Who's the darkest motherfucker on the planet  
Just so close to death I know I am it  
One Demon son

Hey, Hey, Hey, Wanna set you free  
Hey, Hey, Hey, Would you die for me

Gimme Little Death it's so romantic, oh, oh  
Fuck it up to death it ain't so tragic, no....  
Gimme Little Death it's so romantic, Ah gimme something  
Come feel young and special gas of magic

Lead your forehead, into my kiss  
Embrace me a careful darkness  
Death we are, death we've always been  
Who's the darkest motherfucker  
Lead your forehead, into my kiss  
Embrace me a careful darkness  
Death we are, death we've always been  
Who's the darkest motherfucker

Who's the darkest motherfucker  
Darkest motherfucker on the planet  
Just so close to death I know I am it  
Demon son
