

WASP, Show No Mercy

[Lawless]

I, I hear the mighty engines roar
And I unleash the savage dogs of war
Ooh, I'm the outlaw that rides
White anglo saxon, a violent reaction
Fire is my fuel, steel and iron rule
Ride on wasteland
A madman's badland
Ride on wasteland
And I will survive to show no mercy
I can feel the cycles as they turn
And I can smell the bodies as they burn
Ooh, the city's on fire
White anglo saxon, a violent reaction
Fire is my fuel, steel and iron rule
Ride on wasteland
A madman's badland
Ride on wasteland
And I will survive to show no mercy
Pain and hunger all across then thunder
Life is for the biggest, it's survival of the fittest
Ride on wasteland (show no mercy)
A madman's badland (on you)
Ride on wasteland (show no mercy)
A madman's badland (on you, on you, on you)
