

Watashi-Wa, Life Is Beautiful

I meant a lot in a word that I said
And I thought a lot, that word said alot
But then I ruined it, I left it out in the cold
I lost a lot because I thought a lot

Life doesn't always demand that we understand,
Just enjoy it

I'm starting to see it now
What it is we began,
the few that we became, the person you became
And you mean a lot, so much for words to say.
You mean a lot to me. You do.

Life doesn't always demand that we understand,
That we clap our hands,
But we understand that it's beautiful.
Today has its way of making some things new,
And maybe, that means me and you.
So today what I've seen changed a part of me
When it showed me a part of you.

I'm starting to see it now.
What it is we began, the few that we became,
the person you became.
And you mean a lot, so much for words to say.
You mean a lot to me. You do.
Life doesn't always demand that we understand,
that we clap our hands, but we understand that it's beautiful.
Today has its way of making some things new,
and maybe, that means me and you.
So today what I've seen changed a part of me
when it showed me a part of you.
