

Waterdeep, Find Me In The Valley

written by Don Chaffer

Will You find me in the valley
I'm afraid I've lost my way
I was up there on the mountain
But I'm not up there today

There were thousands at our wedding
There were thousands when she died
So will you find me in the valley
And collect the tears I've cried

I can hardly see her face now
warm but flickering like a flame
Will you find me in the valley
and remind me of my name

All the people gather round me
Try to comfort me from pain
But I can hardly hear their words now
I'm by the river in the rain

Come remind me of my name
