

# Waterdeep, I'm Still Here

I went flying in a dream last night  
Whenever I was scared, I took flight  
It didn't seem brave and it didn't seem right  
but it always seemed easier than puttin up a fight

## CHORUS

And I'm almost gone  
But I'm still here

Tell me a story that'll make me feel  
Something far flung but something real  
Something that's human but not depraved  
Somebody endangered, but somebody still saved

When Joshua sat them children down  
He said I ain't no Moses but I ain't no clown  
And I know how that river's wide  
But if you follow me we'll make it to the other side

## CHORUS

And I'm almost there  
But I'm still
