

Waterdeep, I'm Still Here

I went flying in a dream last night
Whenever I was scared, I took flight
It didn't seem brave and it didn't seem right
but it always seemed easier than puttin up a fight

CHORUS

And I'm almost gone
But I'm still here

Tell me a story that'll make me feel
Something far flung but something real
Something that's human but not depraved
Somebody endangered, but somebody still saved

When Joshua sat them children down
He said I ain't no Moses but I ain't no clown
And I know how that river's wide
But if you follow me we'll make it to the other side

CHORUS

And I'm almost there
But I'm still
