

# Watermark, Open Me Up

Come clean the shadows in the closets of my soul  
You are the Light to come and show  
All of the empty places and the darkened rooms  
I cannot hide from what You know  
'Cause Your truth is the light  
So come and light me from the inside

Open me up  
And let the healing begin in me  
I'm giving up everything I am and all that I'll ever be

Come pour in all the things  
You're holding there for me  
You've been there waiting for me to see  
All of the things I've placed between Your heart and mine  
Too much of me I've tried to hide  
But Your truth is the light  
So come and light me from the inside

repeat chorus

What is to come is not yet seen  
But You have promised everything  
I know that when I wait for You  
You make it worth the while  
From where I am to where You are  
My seem to be way too far  
But I call out in the dark  
Your truth is the light  
So come and light me from the inside

Come clean the shadows in the closets of my soul  
You are the Light to come and show  
All of the empty places and the darkened rooms  
I cannot hide from what You know
