

# Watermark, Where To Find Me

When the lie is deeper than I know  
You capture me and You carry me home  
You see these wounds and rescue me  
You always heal things beautifully

And I close my eyes  
And You can still my heart  
And I call out Your name  
Cause You always know  
You always know where to find me  
You always know  
You always know where to find me

And where could I wander that You wouldn't be?  
Whom have I but You who really knows me?  
Proven to be the God that sees  
From strength to strength You've lifted me

And I could cry from the depths of the earth  
I could stand on a mountaintop  
And I can speak Your name out to the wind  
And You go before me  
And You fall around me

Cause You always know  
You always know where to find me  
You always know You always know where to find me
