

Watermät, Becky Hill & TAI, All My Love

I tried to figure out
How to see you through the crowd
I was caught up in the lights
You were missing from my life

I was searching but now I have found
You deserve the world that I can only give you

All my love
Giving you all my love
Now I'm giving you all my love
Giving you all my love

Couldn't think of better ways
I'd like to be spending my days
Watching the sun go down with you
While we dance the whole night through

I was searching but now I have found
You deserve the world that I can only give you

All my love
Giving you all my love
Now I'm giving you all my love
Giving you all my love

Now I'm giving you all my love
Giving you all my love
Now I'm giving you all my love
Giving you all my love
