

# Wave, Sleepless

Do you believe in love at first sight  
Just one glance and you know  
Well I do and I'll tell you what its like  
Its something that can't be described  
Ooh Ooh and I'll never let it go  
This feeling that feels so right

Chorus:

You're the reason I'm not sleepin lately  
You keep me up all night  
I got nowhere to hide  
From the vision you left behind  
Though I try to fight  
Its gonna be a long night

I lie awake thinking of the time  
Before you came into my life  
Suddenly you took me by surprise  
You opened up my eyes  
Ooh Ooh, and I'll never let it go  
This feeling that feels so right

Chorus

Bridge:

The clock up on the wall  
Is moving so slow  
The more i twist and turn  
The more I need you now  
And i cannot erase  
The picture of your face  
I just can't leave it behind

Ooh Ooh, and I'll never let it go  
The magic of this sleepless night

Chorus

The magic of this sleepless night.....
