Wave, Think It Over

You say you wanna see the city lights Cause they shine so bright And they're calling you, ohhh Before you go, you need to know I won't stand in your way But I want you to stay.

(BRIDGE) I remember those summer nights When I held you tight And it felt so right I thought what we had would never end, And now you're leaving

(CHORUS) Baby, think it over, think it over Before you walk away Baby, think it over, think it over Before you turn the page I want you to stay

You say you're going to be a star But to me you are and I never would ask you to change I really want you to chase your dreams But the pain it leaves is just so hard on me

Bridge Chorus

Stay till the morning comes I wanna change your mind One last chance for you to see what you're leaving behind

Bridge Chorus x2
