

# Wavorly, Praise And Adore (Some Live Without It)

What I have to say is obvious  
A knowledge free, for all of us are  
Your Word leaves us with no excuse  
The paths we choose make us who we are  
There's a breeze blowing through here tonight

So I praise and adore You  
Lay it all down before You  
In every way You're beautiful  
From my heart  
I praise and adore  
You made the world beautiful  
I cannot stand and deny  
You created life  
And some live without it

Wake up morning sunrise in my eyes  
At night the moon lights all the sky  
Still some say You didn't do a thing  
The sound of hope that's in the air  
In everything, it's everywhere  
Reveals a truth that's worth remembering  
There's a breeze blowing through here tonight

It's true, it's all You

And every breath I take  
There's no way  
Accident created this place
