

Wavorly, Sleeper

When I'm left alone
Down at the heart of it
My doubt was never a sign of strength
I wish I'd known that You were never far
I guess I would've known if I would've been awake

I've been dreaming life away

Sleeper, no deeper
Lift your eyes
Awake from dreaming
Sleeper, arise and you will find life
The answer is in me

Every dream I knew was but a mere attempt
At what I truly thought would satisfy
Seeking out the truth
If real or make believe
My eyes wide open will really see

Love and life in all You say

Sleeper, arise and you will find life
You will find life when you give your life away
