

Wax Poetic feat. Norah Jones, Tell Me

Will you tell me
That you need me
Am I afraid to not need you
Will you tell me
That you're sorry
Do I have to forgive too
Can I go out by myself
And be a lady all the time
If I don't know that I love you so
Can I not just let you down
Can I be strong
And still belong
If I'm not long
I'll sing my own song
As we travel through the ages
Will you just leave me alone
Time will tell in different stages
If I will or won't be home
So don't call me on Friday morning
And expect me to be free
If you think that we fit together
Put your faith in destiny
Can I be strong
And still belong
If I'm not long
I'll sing my own song
If you want to
Go ahead and lay right down beside me
If you want it too
Just tell me all the things you want to see
