

Wax Poetic feat. Norah Jones, Tommy

Push, shove
Give a man a hand and then tell him that you will be friends forever
Love, hate
Someday we can all relate
Together
And then it's falling from the sky
???

Along the way
And then it's speaking from our hearts
We can make a start
What do you say?
Joy, peace
Wait ??? tomorrow and hold it tight
And never let it go
Give, hope
Someday we can find a way
Learn ??? all the things to say
And then it's falling from the sky
???

Along the way
And then it's speaking from our hearts
We can make a start
What do you say?
