

# Way Out West, Don't Forget Me

There's just one thing that I need to say  
Before I close my eyes and walk away  
There's just one thing that I need to feel  
Before I walk away against my will  
There's just one thing that I need to hear  
Before I walk away for the last time  
There's just one thing that I need to see  
Before I take this chance and set us free

Don't forget me  
Don't regret me  
Don't suspect me  
Don't neglect me

The memory of this still reminds me of you  
The memory of this still reminds me  
The memory of this still reminds me of you  
That is where you'll find me

Stars in your eyes  
Did you take the time to realize  
Can you count the stars in your eyes  
Did you take the time to realize
