

Wayburn Dean, A Little Love

A LITTLE LOVE

(Jay Greene, Stan Skates, A-tone, Wayburn Dean)

I believe that love is everything
It has the power to heal your soul if you just believe
Just one word when someone's down
Can help to turn their life around, forever

We don't need to waste any time
Let his light within you shine
If you give a little, and care a little, share a little love

Chorus

A little love is all we need
So spread a little love today
And make this world a better place

Love it is the greatest of all
Even in small measures
It's still his precious treasure
The world can't wait another day
So hand in hand lets lead the way
Together, God and we together

Deep inside all of us
There's a place where we can find His love
If we just reach inside our hearts
Just a touch of His love
I know He can heal the world
And make that much better
He can make a difference, We can make a difference
If we try
