

Wayburn Dean, Can We Talk

CAN WE TALK
(Mark Parker, Wayburn Dean)

Hey it's your Father and its been a long time
I've been waiting for this chance
I can't get you off of my mind
I know I'm the answer that you're looking for
I would ask how you are doing but I already know
From place to place, time after time
From face to face, still you'll never find
Any one who gives you what I have for you
I wanna talk to you if you'd just allow me to

Can we talk
I have the words of Life
Can we talk
If you would just come near
Can we talk
I will not be denied
I'm waiting and I'm lending you heaven's ear

Please don't keep me on the outside looking in
I'm the only one who knows your life from beginning to the end
I will answer when you call, I will listen when you speak
My heart moves for you when my way you seek
I'm here for you, don't handle this yourself
I'm the only one for you and no one else
Ask me and you will receive
I'm God, Jehovah, and I want to meet your needs

Bridge
I have the world for you, right here with me
And its set apart, you'd give me a chance
If you only knew,
Still I am waiting, I know your name
