

# Wayne Wonder, Close Your Eyes

Sometimes it's stressful, but I gotta end all the pain

Gotta Gotta Get Get Get Away

Wooo Wooo

Gotta Get Get Get Get Get Get Get Get Get Away

Close your eyes (your eyes)

Spread your wings and fly

Baby you and I

Elevate in mind (your mind)

Way up to the sky

Baby you and I

Let's get away

On the wings on love

Let's fly away

Like a pair of bottled doves (\*2)

They keep watching

Every move I make

Still yapping

What they don't know so they speculate

Is it shocking?

Don't you know I always set the pace

Still mopping

I leave no evidence I leave no trace

Close your eyes (your eyes)

Spread your wings and fly

Baby you and I

Elevate in mind (your mind)

Way up to the sky (up and away)

Baby you and I

So amazing

Sunshine in the rain

Stimulating

Every nerve up in my brain

My hearts for saving

Feels like I'm gunna go insane

Sometime frustrating

But I must endure the pain

Close your eyes (your eyes)

Spread your wings and fly

Baby you and I

Elevate in mind (your mind)

Way up to the sky (up and away)

\*2

Get Get Get Get Get Get Get Get

Get away, so

Close your eyes (your eyes)

Spread your wings and fly

Baby you and I

Elevate in mind (your mind)

Way up to the sky (up and away)
