Baby(baby)...

These are the reasons why I'm loving you

These are the reasons why I really care

These are the reasons why I'm into you

These are the reasons why...

One, because she treated me so kind

Two, she never leave me after all this time

Three, sometimes I'm crazy and it gets to her mind

She never leave me lonely, your my one and only

Four, I'm waking up, it's not a dream

Five, she's in my bed making love to me

Six, once a while, it made her scream

She never leave me lonely, your my one and only

These are the reasons why I'm loving you

These are the reasons why I really care

These are the reasons why I'm into you

These are the reasons why...

Sunday morning early breakfast in bed

Monday she relax me and massages my head

Tuesday she is never to proud to beg

She never leave me lonely, your my one and only

Wednesday night I'm chillin in my room

She even wasted time to make her move

Thursday we got time to reset the mood

Thank God payday is Friday, so I can do things my way (Girl)
