

# We Are Scientists, History Repeats

I got this whole thing figured out  
I guess I better write it down, now  
'Cause presently my memory's not terribly sound  
Everything is twice around, now  
It shouldn't be this hard  
I guess I'm not as smart  
As I'd like to think I am  
And even though you won't  
Admit it now I know, you know, I know, you know  
I guess it isn't any news  
This keeps coming out in two's  
If history repeats itself then what can I do?  
Nothing I can say is news to you  
It shouldn't be this hard  
I guess I'm not as smart  
As I'd like to think I am  
And even though you won't  
Admit it now I know, you know, I know, you know  
Let's get this calendar straight  
I shouldn't try to make sense  
Of anything that goes on  
When it goes on again and again and again  
It shouldn't be this hard  
I guess I'm not as smart  
As I'd like to think I am  
And even though you won't  
Admit it now I know, you know, I know, you know
