

# We Are Scientists, Let's See It

I realize that I'm just naturally inclined  
To go and let you down, alright  
I've heard this argument made thousand of times  
I guess I get it now, alright  
If physics dictates means you're going away  
Just when the pressure's on, alright  
Science will just have to surrender to fate  
Cuz I won't let you down, all right

Oh oh oh, oh oh oh  
Oh oh oh, oh oh oh  
Oh oh oh, oh oh oh  
Oh oh oh, oh oh oh

You know that I wouldn't say  
Something I didn't mean  
How many times can this be repeated  
Before you believe that I do believe?  
I believe it

I know that evidence is gonna suggest  
That I will let you down, alright  
Given our history what can you expect?  
I guess I get it now, alright  
This might just buckle under all of the weight  
Now that the pressure's on, alright  
All I can ask is that you muster the faith  
That I won't let you down, all right

Oh oh oh, oh oh oh  
Oh oh oh, oh oh oh  
Oh oh oh, oh oh oh  
Oh oh oh, oh oh oh

You know that I wouldn't say  
Something I didn't mean  
How many times can this be repeated  
Before you believe that I do believe it?  
I wouldn't say  
Something I didn't mean  
How many times can this be repeated  
Before you believe that I do believe?  
I believe it

Oh, I believe it

Oh oh oh, oh oh oh  
Oh oh oh, oh oh oh  
Oh oh oh, oh oh oh  
Oh oh oh, oh oh oh

You know that I wouldn't say  
Something I didn't mean  
How many times can this be repeated  
Before you believe that I do believe it?  
I wouldn't say  
Something I didn't mean  
How many times can this be repeated  
Before you believe that I do believe?  
I believe it
