

# We Are Scientists, That's What Counts

We shouldn't think about last night,  
nobody's proud of what they've done.  
Oh, let's not argue about what's right,  
let's just agree that it was fun, fun

Enough is not enough,  
but I keep saying that I'll stop  
over and over.  
I'm drowning in each drop.

There's not much left for me to do  
but try to make another call.  
If I'm not waking up with you,  
why bother waking up at all?

Enough is not enough,  
but I keep saying that I'll stop  
over and over.  
I know this isn't news,  
but I think I'm getting used  
to sayin' that I'll go  
over and over.

Enough is not enough,  
but I keep sayin' that I'll stop  
over and over.  
I know this isn't news,  
but I think I'm getting used  
to sayin' that I'll go  
over and over.  
I'm drowning in each drop,  
but enough is not enough.  
And I keep saying that I'll stop  
over and over.  
I know this isn't news.
