

# We Are Scientists, The Great Escape (The Silence)

Making my escape  
Making my escape  
Tell myself that  
Everything's in shape  
Everything's in shape  
But me  
How long can this take  
How long can this take  
Tell myself that  
Everything is great  
Everything is great  
Well how'm I doing?

I gotta great idea  
I'm gonna wait right here  
I gotta great idea  
I'm gonna wait right here  
While everything is adding  
Up, up, up  
Everything is adding  
Up, up, up

Breaking both my hands  
Breaking both my hands  
Telling me to  
Take it like a man  
Take it like a man  
I can't  
I don't understand  
I don't understand  
Please repeat whatever you just said  
Nothing's making sense  
Well how'm I doing?

I gotta great idea  
I'm gonna wait right here  
I gotta great idea  
I'm gonna wait right here  
While everything is adding  
Up, up, up  
Everything is adding  
Up, up, up

They're breaking both my hands  
They're breaking both my hands  
And telling me to  
Take it like a man  
And take it like a man  
Well fuck that  
I don't understand  
Said I don't understand  
So please repeat whatever you just said  
'cause nothing's making sense  
Well how'm I doing?

I gotta great idea  
I'm gonna wait right here  
I gotta great idea  
I'm gonna wait right here  
While everything is adding  
Up, up, up  
Everything is adding  
Up, up, up
