

We The Kings, Skyway Avenue

She said let's change our luck
This night is all we've got
Drive fast until we crash
This dead end life

Sweet dreams that won't come true
I'd leave it all for you
Brick walls are closing in
Let's make a run tonight

Blinded by the lights
Hold you through forever
Never let you go

'Cause if you jump I will jump too
We will fall together
From the building's ledge
Never looking back at what we've done
We'll say it was love
'Cause I would die for you
On Skyway Avenue

She said don't change your mind
Let's leave this town behind
We'll race right off the cliff
They will remember this

It all got so mundane
With you I'm back again
Just take me by the hand
We're close to the edge

Blinded by the lights
Hold you through forever
Never let you go

'Cause if you jump I will jump too
We will fall together
From the building's ledge
Never looking back at what we've done
We'll say it was love
Cause I would die for you
On Skyway Avenue

Where are your guts to fly
Soaring through, through the night
And if you take that last step
I'll follow you
Leave the edge and fly
We're finally alive

Cause if you jump I will jump too
We will fall together
From the building's ledge
Never looking back at what we've done
We'll say it was love
Cause I would die for you
On Skyway Avenue
So what's left to prove
We have made it through
