We The Kings, Skyway Avenue

She said let's change our luck This night is all we've got Drive fast until we crash This dead end life

Sweet dreams that won't come true I'd leave it all for you Brick walls are closing in Let's make a run tonight

Blinded by the lights Hold you through forever Never let you go

'Cause if you jump I will jump too
We will fall together
From the building's ledge
Never looking back at what we've done
We'll say it was love
'Cause I would die for you
On Skyway Avenue

She said don't change your mind Let's leave this town behind We'll race right off the cliff They will remember this

It all got so mundane With you I'm back again Just take me by the hand We're close to the edge

Blinded by the lights Hold you through forever Never let you go

'Cause if you jump I will jump too
We will fall together
From the building's ledge
Never looking back at what we've done
We'll say it was love
Cause I would die for you
On Skyway Avenue

Where are your guts to fly Soaring through, through the night And if you take that last step I'll follow you Leave the edge and fly We're finally alive

Cause if you jump I will jump too
We will fall together
From the building's ledge
Never looking back at what we've done
We'll say it was love
Cause I would die for you
On Skyway Avenue
So what's left to prove
We have made it through
