

Webb Pierce, Love Come To Me

Love come to me let me live again

Blues stay away from me let my heart beat again

I'm not so strong that I can cry to be alone hurts me deep inside

I long to share a love I never known

I'd like to start my life anew try to forget what I've gone through

Oh how I need someone to call my own

Love come to me let me live again

Blues stay away from me let my heart beat again

Someone for my own is my plea love come to me

[guitar]

I'm needing one who'll talk with me I've gone to the wrong comp

Though I knew those love affairs went right

I'm longing for a love that's true torn between the past I knew

I'm lonesome love please come to me tonight.
