

# Webb Wilder, Run With It

"Run With It"

Come on and love me  
Give it all you've got  
Let's get it  
Get it while it's hot

Now I am ain't talking about a bunch of carrying on  
I'm talking soul survivor  
A love that's solid as stone

Let it rock, let it roll all night long  
I've got conviction, baby  
It's you and you alone

If seeing is believin', this thing is really gone  
So let it go  
Love's got a mind of its own, yeah

Just run with it  
Just run with the feeling  
Just run with it

Well come on, turn it loose  
Let it go through the roof  
Now there ain't no doubt what it's all about  
Just run with it

Don't second guess it  
Don't mess with it, baby, just run

Let it grow now, like a flower in the sun  
Give it lots of loving care  
You know it can't be overdone  
Let it flow like a river  
Let the current draw you in  
Let's take the plunge baby, together we'll be in the swim

Just run with it  
Just run with the feeling  
Just run with it

Well, come on turn it loose, let it go through the roof  
Now there ain't no doubt what it's all about  
Just run with it, now just run  
Don't second guess it, don't mess with it, baby just run

Just run with it  
Just run with the feeling  
Just run with it

Hey, come on turn it loose, it's running loose  
Let it go through the roof, yeah just let it go  
Now there ain't no doubt, doubt, doubt, doubt  
That's what's it's all about  
Just a run with it  
Just run  
Don't second guess it, don't mess with it, baby just run  
Just run with the feeling  
Come on and run with it  
Run with the feeling  
Hey, aw you got to  
You got to run with it with it  
C'mon, c'mon, c'mon, c'mon and run with it

C'mon, c'mon, c'mon and run with it  
Ha ha ha ha
